

JOBI BL

Aspiring SOC Analyst | Cybersecurity Intern

Trivandrum, Kerala, India | jobibl777@gmail.com | +91 7736240524

[linkedin.com/in/jobibl777/](https://www.linkedin.com/in/jobibl777/) | github.com/Jobi-bl

PROFILE SUMMARY

Cybersecurity intern with hands-on project experience in vulnerability scanning, secure authentication, SIEM-based detection, and network fundamentals. Built a home SOC lab using Wazuh, Kali Linux, and Ubuntu to practice real attack simulation and alert triage. Currently completing a project-based internship at Thiranex with an EC-Council Certified SOC Analyst (CSA) certification and active practice on TryHackMe, HackTheBox, and OverTheWire.

CERTIFICATIONS

- Certified LLM Security Professional (CLLMSP) | Redteam Leaders (Jul 2026)
- Certified SOC Analyst (CSA) v2 | EC-Council (Jun 2026 - Jul 2027)
- Cybersecurity Job Simulation | Mastercard / Forage (Feb 2026)
- Cybersecurity Analyst Job Simulation | Tata / Forage (Feb 2026)
- Cyber Job Simulation | Deloitte / Forage (Jul 2026)

WORK EXPERIENCE

Cyber Security Intern | Thiranex (Remote)

Jun 2026 - Jul 2026

- Engineered and tested a Python-based vulnerability scanner and secure authentication system under industry mentorship
- Analyzed network traffic and assessed vulnerabilities using core SOC fundamentals in a remote, project-based internship

PROJECTS

Built during cybersecurity internship and self-study, 2026

- Home SOC Lab (Wazuh, Kali Linux, Ubuntu) | Built a personal detection lab, simulated SSH brute-force attacks using Hydra, correlated 468 authentication failure events in Wazuh SIEM with automatic MITRE ATT&CK mapping (Brute Force, Password Guessing, SSH)
- Mini Vulnerability Scanner (Python) | Engineered a TCP port scanner with banner grabbing and severity-ranked reporting of known-risky service versions
- Password Strength Analyzer (HTML/JS) | Developed a browser-based tool with live entropy calculation, pattern detection, and SHA-256-based reuse prevention
- Secure Login Web Application (Flask, SQLite, Argon2) | Configured an authentication system with password hashing and session security
- ML Phishing Email Detector (Scikit-learn) | Trained a Logistic Regression classifier using TF-IDF and handcrafted features to flag phishing emails

EDUCATION

Certified IT Infrastructure and Cyber SOC Analyst (CICSA)

Sep 2025 - Jun 2026

RedTeam Hacker Academy, Trivandrum

Bachelor of Computer Applications

2025

East West Institute of Technology, Bangalore University

SKILLS

SOC Tools: Wazuh SIEM, Wireshark (Traffic Analysis), Splunk (Basics), Nmap, Hydra

Networking: Networking Fundamentals, Port Scanning, Vulnerability Assessment, Linux Fundamentals

Programming & Other: HTML/CSS, Git/GitHub

PRACTICE PLATFORMS

TryHackMe • HackTheBox • OverTheWire (~20 levels completed)

LANGUAGES

Malayalam (Native) • English (B2) • German (A1)
